

Get Actionable Intelligence from Your Inspections.

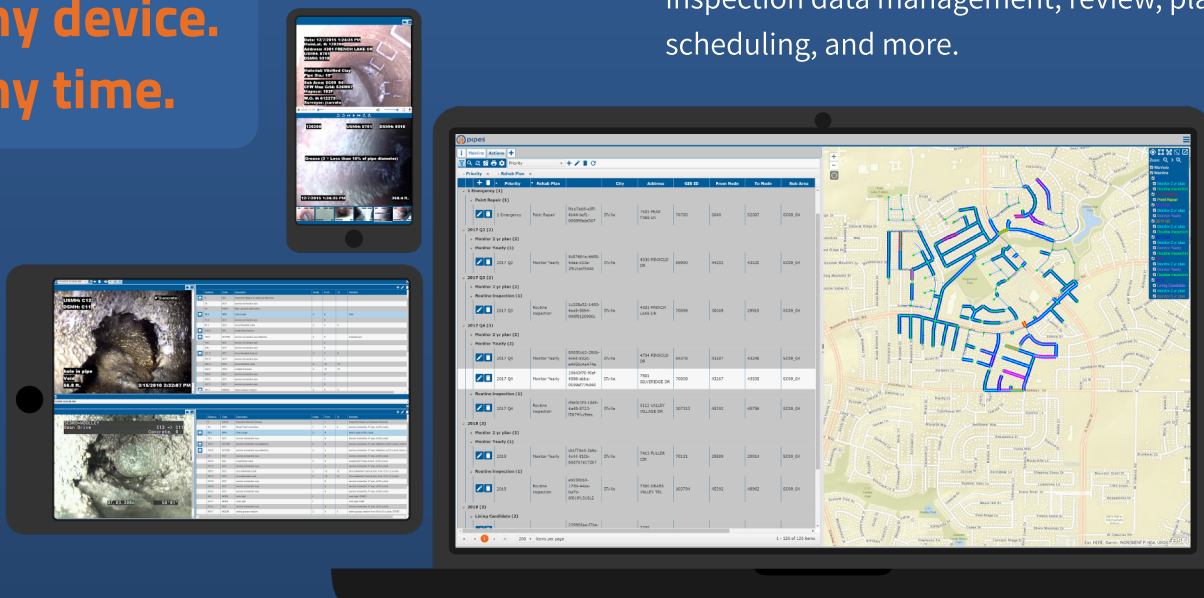

Comprehensive Inspections

Use Web with storm, sewer, and combined, or other linear and point assets for comprehensive underground inspections. Also, ITpipes Mobile/CCTV and ITpipes Mobility sync directly into ITpipes Web with internal hosting or ITpipes Cloud.

Powerful Reporting/Dynamic Mapping

With unlimited drill-down filtering and querying on any data collected, ITpipes dynamically updates SmartTabs, as new inspections sync, to give you instant reports. And the same reports with drill-down color-coding display on the map, updating real-time as new inspections sync!

**Anywhere.
Any device.
Any time.**

Make Better Decisions

ITpipes Web comes with search, sort, and grouping tools that will quickly provide intelligent reporting. Combined with Web's easy to use, unlimited filtering and querying, users can now make faster, better informed decisions!

Unlimited Collection and Reviews

ITpipes' extensive configuration options provide unlimited potential for pipeline data collection, review, analysis and planning. Plus, ITpipes user editing – with appropriate permissions, is available at any time for inspection QA/QC and review.

Made for Teams

Web is the ultimate tool for pipeline inspection, management and reporting in the office, providing quick inspection review access in the field and powerful reporting as needed. ITpipes Web is browser based and can be used to simplify deployment. Web also has powerful features for inspection data management, review, planning, scheduling, and more.

Pipeline Inspections. Actionable Intelligence.

Inspections When and Where you Need them.

Seamless integration with Cityworks, Cartegraph, Infor, Lucity, and Tyler Tech.

ITpipes Mobile - Easy Inspections

Expedite inspections and boost performance with ITpipes Mobile. This powerful software is compatible with the majority of camera systems on the market and is NASSCO and SPICAP certified.

ITpipes Sync - Automated Mgt

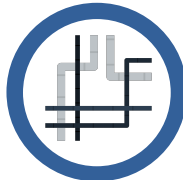

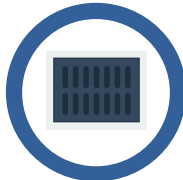

Sync can upload or download data, apply updates, send out automatic notification to users and is fully configurable. Settings allow Sync to run on a pre-defined schedule or on demand, as needed.

ITpipes Cloud - SaaS or Local

Fully hosted, on-demand, and SaaS, ITpipes Cloud securely stores and archives your pipe inspection data and videos for easy access anytime, anywhere. On-premise, local storage or client hosted cloud storage is also an option with ITpipes applications.
